

ROLLEREDGE[®]

SACRIFICE NOTHING[™]

**LIVE ACTION
WHEELS**
For Plastic
Courts

Now you can do it all. Whatever you can do on ice, you can do on plastic courts with Roller Edge Live Action inline wheels. Edge stops, sliding turns, front and rear snow-plows: Moves that are impossible on any other type of wheel. The patented design of Roller Edge Live Action wheels incorporates Mearthane[®] polyurethane chemistry and a special rim of proprietary plastic which provides just the right combination of "stick" and "slip" to duplicate the performance of ice skates. The full round radius and small to medium diameters also allow the high degree of maneuverability needed in action play. These are wheels to score on! Once you use them, there are no others.

Wheel	Size	Hardness	Formulation	Color	Application
Olympia	72mm	76A	Satin Ride	Black Steel	Plastic Courts: Hockey, Freestyle, X-Training
Rink Rat	77mm	76A	Satin Ride	Black Steel	Plastic Courts; Hockey, Freestyle, X-Training
